DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

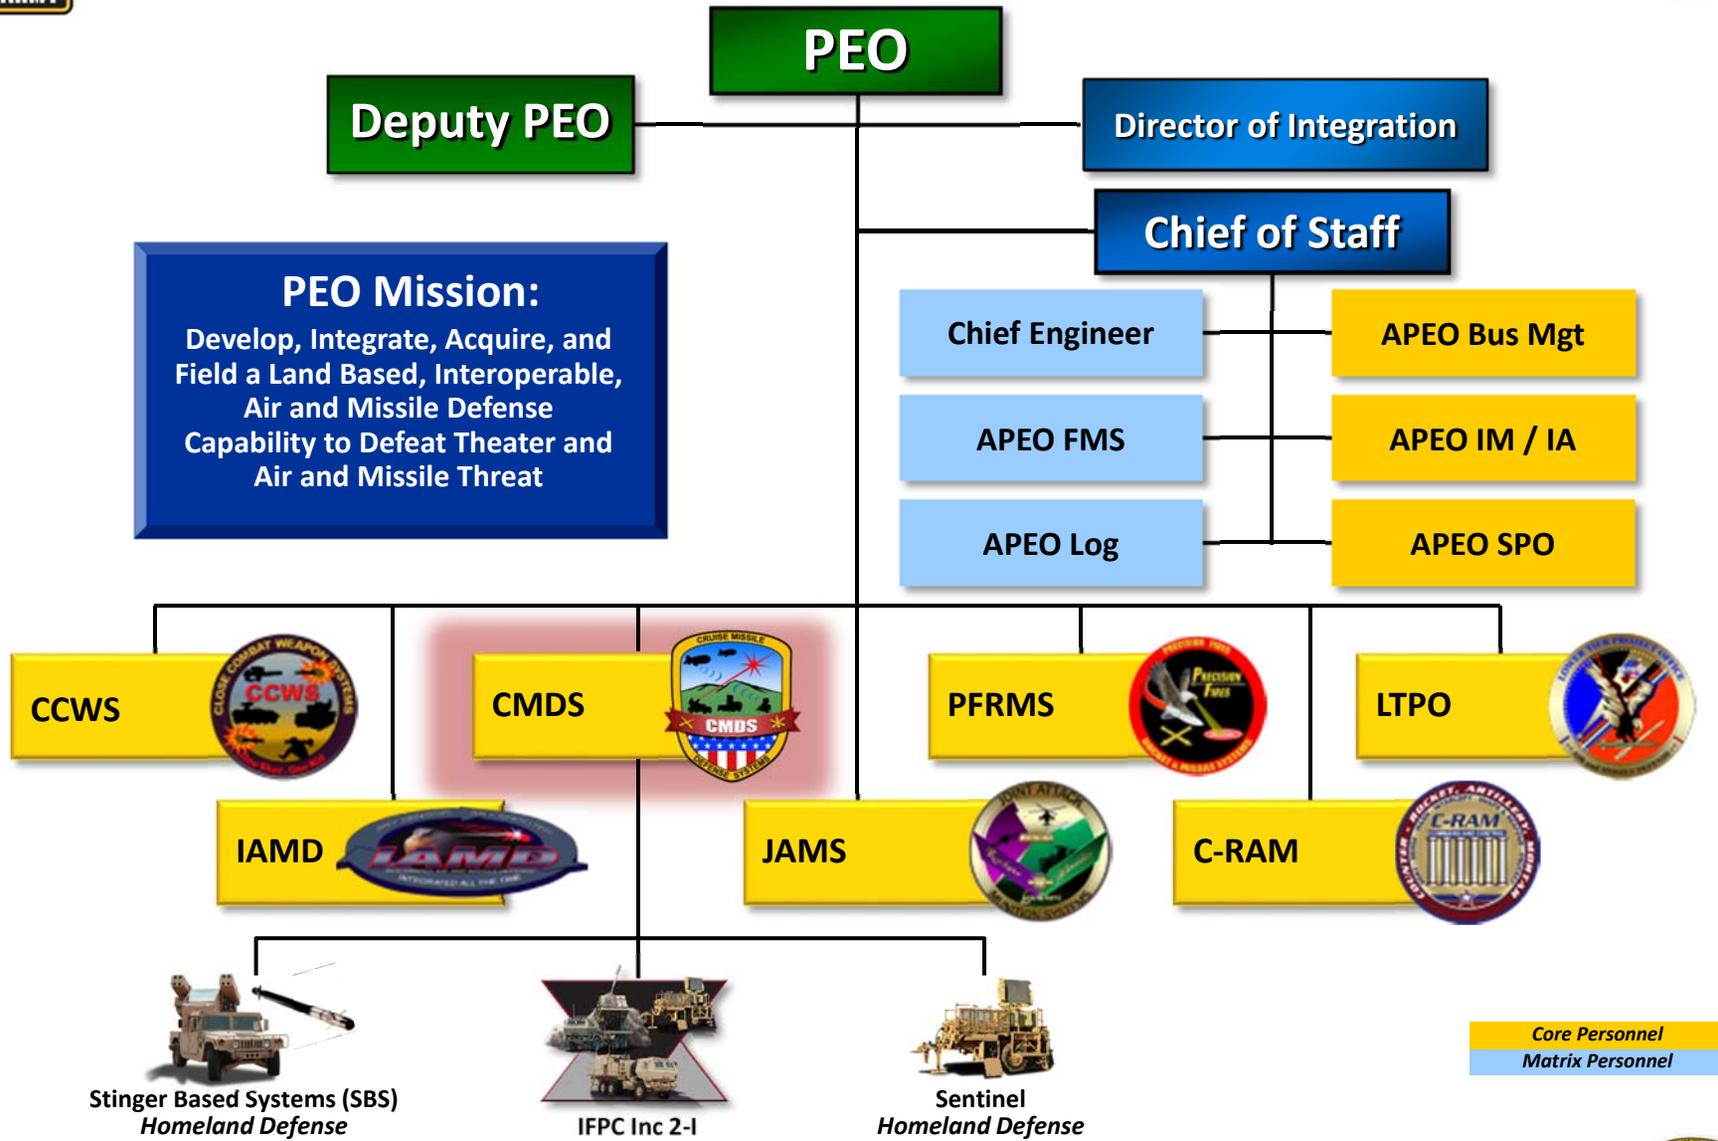

Receipt of this information does not constitute a commitment, intended or implied, on the part of the U.S. Government to sell or furnish the equipment, systems, or information discussed in the data or briefing until such time a final U.S. Government decision has been made concerning the sale of such equipment, systems or information

UNCLASSIFIED

PEO Missiles & Space Organization

PEO Mission:
 Develop, Integrate, Acquire, and Field a Land Based, Interoperable, Air and Missile Defense Capability to Defeat Theater and Air and Missile Threat

CMDS Products & Support

STINGER

Man-portable, shoulder-fired and platform mounted guided missile system. Enables effective low-altitude engagement of Unmanned Aerial System, Cruise Missile, Rotary Wing, and Fixed Wing threats.

AVENGER

Lightweight, day or night, limited adverse weather fire unit employed to counter enemy Reconnaissance, Surveillance, and Target Acquisition (RSTA) efforts and low-level aerial threats. Employs Stinger Missiles.

SENTINEL

Key air surveillance and target acquisition/tracking sensor for air defense weapons.

NASAMS

CMDS contributes to Homeland Defense by supporting the deployment of the National Advanced Surface to Air Missile System (NASAMS), Sentinel, Avenger and Stinger.

IFPC INC 2-I

Next generation air defense weapon system to counter Unmanned Aerial Systems (UAS), Cruise Missiles, and Rocket, Artillery, and Mortar (RAM) threats to maneuver forces and critical assets.

FOREIGN MILITARY SALES (FMS)

Summary

- CMDS develops, produces, fields and sustains the world's premiere short and medium range air defense systems
- Leveraging Science and Technology efforts to address capability gaps
- Developing a diversified portfolio through affordable and cost effective acquisition programs
- Providing full life-cycle management of Army Cruise Missile Defense Systems and Integrated Fire Protection

Providing world class support to the Warfighter
